How To Make Out-of-Town Calls

Out-of-Town calls can be completed almost as quickly as local calls, providing you give the telephone number when calling.

Keeping a record of out-of-town num-

bers frequently called will save time on future calls. If you wish to have the telephone numbers of a list of out-of-town subscribers, our Business Office will be glad to furnish them.

OUT-OF-TOWN CALLS ARE OF TWO GENERAL CLASSES:

Station-to-Station Calls

When you want us to do nothing more than to connect you with an individual line or party line telephone or private switchboard, call "Long Distance" and tell the operator the city, state and the telephone number. If you don't know the number, give the operator the name and address as for example: "St. Louis, Missouri, ANYONE at Read's Department Store, 2100 Broad Street." Give your number when the operator requests it.

The charge for a Station-to-Station call begins when the called telephone or private switchboard answers.

Station-to-Station service should be used when you are willing to talk to ANYONE answering the called telephone or when you are sure the person with whom you wish to talk will be there.

See the next column if you want to call either a particular person or a particular telephone or department reached through a private switchboard.

Person-to-Person Calls

When you want to be connected with some particular person or with a particular telephone or department reached through a private switchboard, call "Long Distance." Tell the operator the city, state, and person or department wanted, and also the telephone number and extension number if you know them. Give your number when the operator requests it.

The charge for a Person-to-Person call begins when you reach the person, extension, or department you want.

Appointment and Messenger calls take Person-to-Person rates plus the cost of any messenger service performed. Messenger charges incurred are to be paid whether or not conversation is held.

Reduced Rates

Between 6 P.M. and 4:30 A.M. and all day Sunday reduced rates are in effect. On calls to points within the State of Wisconsin a Family Visit Call rate is in effect from 9 P.M. to 4:30 A.M. every night. On Family Visit Calls you may talk for 10 minutes at the 5 minute rate

and pay only the per minute rate for each additional 2 minutes over 10.

The time of day, at the originating point, when conversation starts, determines whether Day, Night and Sunday or Family Visit Call rates apply.

Collect Calls

A COLLECT CALL is a Station-to-Station or Person-to-Person call, for which you wish to have the subscriber at the distant point pay the charges.

On Collect Calls if you request it, the operator will ask the person you are calling if he will pay the charges. Collect Station-to-Station calls within Wisconsin

cost 10 cents more than other calls. No extra charge is made on collect Person-to-Person calls.

A request to make a call collect should be given to the operator when the call is placed, so that she can endeavor to obtain acceptance of the charges before the connection is established.

Requests for Rates and Charges

On request, the operator will quote the rate to any out-of-town point. If you wish to be told the charges on a particular call, make the request when you place

the call or when you accept a "collect" call. The operator will call you back and quote charges.

Typical Out-of-Town Rates may be found on Page One of this directory.

International, Aircraft and Ship Telephone Service

Telephone service is available from your telephone to certain foreign countries, subject to such limitations with respect to completion as may be enforced from time to time by the government of such country or by the United States Government.

Telephone service is also offered to certain aircraft, and to many ships on inland waterways, coastal waters and the high seas when they are within reach. To place a call from your telephone to an aircraft or vessel, call "Long Distance."

Mobile Telephone Service

Mobile telephone service provides two-way voice communication between any telephone reached by the Bell System and an automobile, truck, boat, etc., suitably equipped with a mobile radio-telephone.

To place a call to a mobile telephone call Long Distance and ask for the Mobile Service Operator.

For rates or other information regarding mobile telephone service please call the Business Office.

"BEEP" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with

whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

*smart folks
know...*

BEDROOM telephones bring privacy, comfort, safety. Night calls easy to hear and answer.

A KITCHEN telephone saves miles of steps; saves worries when cooking, too.

A DEN or STUDY telephone lets you or your guests take or make calls at ease and in private.

Modern homes have plenty of phones

ABOUT 3 PENNIES A DAY . . . is all it costs you for another telephone anywhere in the house.* Just call the telephone office and say you want more telephones. We'll install them promptly.

*An additional telephone costs 99 cents a month, including tax, plus a small installation charge when applicable.

Distance, once a barrier to spoken words,
has lost its power to limit the human voice.
Today words defy intervening miles, and
two friends with an ocean or continent be-
tween them talk as if face to face. In thus
extending the range of man's voice, the
telephone performs a modern miracle. It is
a part of the miracle that this is done so
swiftly, so easily and so cheaply.

SERVICE ENEMY No. 1

When the receiver is held off its cradle your telephone is "busy" to anyone trying to call you. And if you're on a party line, then all the other telephones on the line are "busy," too. So, for better service, be careful to replace the receiver properly, watching especially for books or objects that might put a "road block" on your telephone service.
